## PROFILE

Experienced Web Developer with over 5 years in creating and maintaining dynamic websites. Skilled in custom WordPress themes and JavaScript frameworks, with a focus on optimizing site performance, ensuring security, and delivering responsive, user-friendly designs. Proficient in front-end technologies including JavaScript, HTML, and CSS, as well as advanced SEO techniques. Known for transforming PSD designs into functional websites and collaborating effectively with cross-functional teams.

## WORK EXPERIENCE

### WEB DEVELOPER

JUN 2022 - JUL 2024

Virtual Done Well

- Developed and maintained custom WordPress themes and JavaScript frameworks from scratch, emphasizing clean and efficient code.
- Converted PSD designs into attractive and functional WordPress pages, with a strong focus on design and user experience.
- Utilized advanced techniques to optimize website speed, enhancing SEO performance and rankings.
- Managed databases effectively using MySQL, ensuring data integrity and security.

### WEB DEVELOPER

JAN 2019 - APR 2022

Jaerltrics Global Solution

- Develop and maintain high-quality front-end code using JavaScript, HTML, and CSS.
- Collaborate with cross-functional teams to define, design, and deliver new features.
- Implement responsive designs and ensure compatibility across various browsers and devices.
- Design and implement visually appealing and functional custom WordPress themes.
- Collaborate with clients to integrate creative ideas into websites.
- Perform technical SEO audits to address crawlability, indexing, and site architecture issues.
